CSCMP SUPPLY CHAIN CHALLENGE

The CSCMP Challenge, a part of The Fresh Connection Global Challenge, is designed as a unique supply chain management (SCM) training event.

A team of 4 participants work on a Supply Chain Problem, using a globally renowned experiential Learning Tool – The Fresh Connection. The challenge is to turnaround the company, by making strategic and tactical decisions in Supply Chain Management.

Participants get deep insights into systems thinking in supply chain management, by analysing trade-offs and aligning the entire value chain to a common game plan.

The team's success is measured not on individual performance but on the Return on Investment !

Globally: 1000+ Participants | 100+ Companies | 20+ Countries

Participants' Feedback

This is a fantastic program to foster customer first mind-set

Varun Gupta, Nestle India Ltd.

Great Program!!! Really good for Supply Chain Professionals and provide how to see Holistic View of end to end Supply Chain and what contribution you can do

Farhan M., Castrol India Ltd

This program helped in broadening my understanding of inter-linkages and interdependence of different PSM functions as well as different actions in same function. Content, design and delivery - all were great.

Vinamra Girjanandan, Signify (Philips)
